

TABLETS & CAPSULES

www.tabletsandcapsules.com

April 2018
Volume 16 Number 3

Cover photo shows tablets coated using an LC series coater, which coats material 40 percent faster than comparable systems. In addition to production-scale drum coaters, the company also offers lab-scale coaters for micro-batches, coating solutions for a number of different industries, LFP series fluid processors for complex applications, and Loedige Ploughshare mixers that can be used for coating tasks in the food industry. Courtesy of Loedige Process Technology, Paderborn, Germany. For more information, call +49 5251 3090 or visit www.loedige.de/en/.
