

SupplySide West

a preview

Conference and expo offers more than 140 hours of education

SupplySide West—a trade show and conference focused on dietary supplement, beverage, functional food, personal care, and sports nutrition ingredients—takes place November 6-10 at the Mandalay Bay Hotel in Las Vegas, NV. Organizers expect more than 16,000 attendees and about 1,300 exhibitors showcasing 10,000 ingredients and other products. This gathering of industry professionals aims to drive innovation, growth, and profit through input from professionals working in purchasing, R&D, product development, executive management, marketing, compliance, supply-chain management, QA/QC, and other focuses in the health and nutrition industries.

Education

The conference offers more than 140 hours of educational programming, including trainings, workshops, and panels focused on market trends, formulation considerations, and regulatory changes.

On November 6 and 7 from 8:00 am to 5:00 pm, NSF International will facilitate a 2-day training course on GMP manufacturing, packaging, labeling, and holding operations for dietary supplements. The organization is also offering two 1-day courses on label claim and promotion and vendor qualification and auditing.

Several 2- or 3-hour workshops are scheduled each day of the conference and will cover market trends,

clinical research, and regulatory changes. Topics include biotechnology, personalized nutrition, cannabinoid and hemp extracts, supply-chain technology, choosing a contract lab partnership, audits, prebiotic market opportunities, probiotic product development, and managing quality.

Conference visitors can also attend short panels featuring speakers from the FDA, Global Organizations for EPHA and DHA Omega-3 (GOED), the International Probiotics Association (IPA), and industry-leading manufacturers and suppliers.

On Saturday from 7:30 am to 5:00 pm, the American Herbal Products Association (AHPA) Botanical Congress will explore several subjects, including political advocacy in the herbal products industry, financial trends and opportunities, sustainability, legal and regulatory challenges for sports nutrition, and regulations and research about cannabis and hemp.
