<b>Company listings</b>	<b>125</b>
<b>Advertiser index</b>	<b>140</b>

Each November, *Tablets & Capsules* departs from its usual format to provide readers with our annual Buyer's Guide, a compilation of organizations, suppliers, and products related to the formulation, production, and packaging of tablets and capsules. This issue also includes a listing of 2018-2019 courses and other events, an index of articles, a glossary of terms, and reference charts on tablet shapes and capsule sizes.

We hope you find this year's Buyer's Guide useful and informative. If you find any of our lists incomplete or feel that we've missed important information, please let us know.

In 2018, *T&C* published eight issues, along with our twice-monthly e-newsletter, "Solid Dose Digest." If you're not receiving our e-newsletter, please contact Ms. Kyle Myers at [kmyers@cscpub.com](mailto:kmyers@cscpub.com).

In June, we also published the fourth edition of "Solid Dosage Sourcebook," a 64-page special issue featuring the leading suppliers of solid dosage equipment, materials, and services. If you don't have the Sourcebook, you can find it on our website, [www.tabletscapsules.com](http://www.tabletscapsules.com).

If those sources don't give you enough solid dosage information, please follow us on Twitter (@TabletsCapsules) and Facebook or connect with us on LinkedIn.

Thanks to our readers, editorial contributors, editorial advisors, and advertisers for another successful publishing year. As always, we welcome your suggestions and contributions to help make *T&C* even better in 2019.

Sincerely,

Nate Todd, Editor
