

TABLETS & CAPSULES

www.tabletsandcapsules.com

July 2019

Volume 17 Number 5

Cover photo shows Nu-Bind excipient, a natural alternative to synthetic and plasticized binders, including HPC, PVP, HPMC, PEG, pregelatinized starch, and gelatin. Certified organic tablets can be made using the binder, allowing natural and organic supplement manufacturers to produce clean-label solid oral dosage products. Company offers various other natural and organic excipients. Courtesy of Ribus. For more information, call 314 727 4287 or visit www.ribus.com.

EXCIPIENTS & FORMULATION

- Developing oral controlled-release drug products** **13**
Richard Sidwell
- Using next-generation HPMC polymers as an alternative to gelatin for hard capsules** **18**
Matt Richardson and Nicolas Madit
- Issue focus: Excipients & formulation** **22**
- Taste masking orally disintegrating tablet formulations** **24**
Sreeramaiah Arunkumar, Vinay Muley, Michael Baumann, and Rina Chokshi
- Excipients and continuous manufacturing** **33**
Chris Moreton
- How understanding material deformation characteristics can improve tableting process scale-up** **36**
Robert Sedlock
