March 2020

Volume 18 Number 2

In this issue of *Tablets & Capsules*, we focus on outsourcing with articles on developing poorly soluble drugs and formulating with complex APIs. We also learn how a CDMO expanded its manufacturing capabilities through a partnership with a pharmaceutical equipment supplier. Elsewhere in the issue, we cover drug delivery systems for oral OTC products, product-specific slats for bottle filling machines, and gelatin versus plant-based hard capsules. We also preview Interphex, FIP Pharmaceutical Sciences World Congress, and CPhI North America.

OUTSOURCING

Advancing poorly soluble drugs to the clinic: Rapid development of tablet formulations using milligrams of API	10
	<i>Ruchit Trivedi</i>
Issue focus: Outsourcing	21
Formulating drug products with complex APIs	24
	<i>Neba Shab</i>
Parsalex expands manufacturing capabilities	28
Back page	48
	<i>John S. Ross</i>

ALSO IN THIS ISSUE

Strategic use of oral drug delivery systems in the lifecycle management of consumer healthcare products	16
	<i>Bob Nissen</i>
Interphex preview	27
FIP Pharmaceutical Sciences World Congress preview	31
Dedusters: A survey of what's available	32
CPhI North America preview	34
Customize to cut costs: How product-specific slats can optimize the bottle-filling process	36
	<i>Brad Feldman</i>
Counters & bottle fillers: A survey of what's available	38
Eye on Excipients	40
	<i>Martin Junginger</i>
