January/February 2021

Volume 19 Number 1

Cover photo shows the cantilever ramp laser marker separating bulk softgels for precision laser marking. Versatile and affordable machine marks and inspects up to 200,000 tablets or capsules per hour with CO₂ or UV lasers for identification, counterfeit protection, and brand recognition. Laser marker offers quick changeover between products and provides continuous operation with minimal user interaction or downtime. Courtesy of Ackley Machine Corporation. For more information, call 856 234 3626 or visit www.ackleymachine.com.
