

TABLETS & CAPSULES

www.tabletscapsules.com

March/April 2021
Volume 19 Number 2

Cover photo shows the company's Pharmafill line of packaging machinery. PS1 Packserter (left) inserts desiccant packs into bottles before a modular conveyor moves the containers to a TC3 automated counter (middle), which fills the bottles with capsules. Bottles then move to a downstream CS1 cotton inserter (right), which places cotton into the filled containers. Courtesy of Deitz Company, Wall, NJ. For more information, call 732 681 0200 or visit www.deitzco.com.

OUTSOURCING
