This issue of *Tablets & Capsules* departs from our usual format to provide you with a compilation of organizations, suppliers, and products related to the formulation, production, and packaging of tablets and capsules. If you find any of our lists incomplete, please let us know.

This issue also includes a listing of 2017-2018 courses and other events, an index of articles, a glossary of terms, and reference charts on tablet shapes and capsule sizes. Again, if we've missed important information, please tell us.

In 2017, we published eight issues, and continue to offer "Solid Dose Digest," a twice-monthly e-newsletter. If you're not receiving it, please contact Ms. Kyle Myers: [kmyers@cscpub.com](mailto:kmyers@cscpub.com).

In June, we published the third edition of "Solid Dosage Sourcebook," an 88-page special issue featuring the leading suppliers of equipment, materials, and services. It's available at our website, [tabletscapsules.com](http://tabletscapsules.com)

If those sources don't give you enough solid dosage information, please follow us on Twitter (@TabletsCapsules) and Facebook. Or connect with me on LinkedIn. There's also a T&C group page you can join.

Thanks to our readers, editorial contributors, editorial advisors, and advertisers for a successful publishing year. We'd welcome your suggestions—and your help—to make T&C even better in 2018.

Sincerely,

Matthew Knopp, Editor
